Mr. Wayne Hedberg, Permit Supervisor
State of Utah Department of Natural Resources
Division of Oil, Gas, and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, UT 84180-1203

Subject: Division of Oil, Gas, and Mining, January 13, 1991,
Review of Bluewater I Installation and Reclamation
Plan Submittal, Request for additional information,
Bingham Canyon Mine, M/035/002.

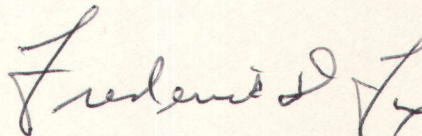

Dear Mr. Hedberg:

Kennecott Utah Copper (KUC) has received the technical review of the Bluewater I submittal completed by the Division of Oil, Gas, and Mining (DOGM). As you know the Ground Water Protection Permit package sent to the DOGM was intended to keep your office informed of activities involving removal actions under EPA jurisdiction.

As discussed with you on February 10, 1992, KUC is willing to provide the additional information as requested, however we will need additional time beyond the March 6, 1992 date mentioned in your correspondence. KUC feels that May 8, 1992 would be a more realistic date for submittal of our response to your comments.

Thank you for your attention in this matter. If you have any questions, please give me a call.

Sincerely,

Frederick D. Fox
Director, Environmental Affairs
